

The Opportunity of a Lifetime

Vacancy for a Data-Analytics Professional

We are growing and so can you!

Are you a data-analytics professional that can answer our clients' questions? Have you helped companies translating their data into reporting, statistical analysis, strategic insights and creating automated data-driven, scalable solutions? Can you visualize data so that everyone can understand it?

If you answered with yes to these questions we are looking for you!

We are seeking an innovative and tech-savvy Senior Data-Analytics professional to enforce our team. Senior Data Analytical Professionals are the drivers of how data is leveraged in solving business problems within their area. They are able to use their experience to consult with stakeholders in problem-definition, setting success metrics and shaping the way forward through data insights and effective communication with their audience.

Who are we- the Arcas Partners Experience

We are a high performing, high tech advisory & consultancy firm that adds value to our clients! To take the next step in our scale-up phase we need you to collect, interpret and visualize data for a wide range of top tier clients. Our projects and clients are diverse, challenging, interesting and fall under, amongst others, the Financial, Utility, Healthcare, Government and Telecom sector in the Dutch-Caribbean, the Netherlands, USA and Suriname. We are a young, international team of 20 professionals who work with loads of fun and passion with ground-breaking technology and solutions for our clients! This is the perfect environment for you to develop and test your skills in a high-tech and professional company with young and dynamic peers and colleagues!

What do we need from you

- Deep and extensive understanding of (big) data structures.
- A special talent to work with and to visualize data.
- Experienced developer with strong and advanced skills with VBA, Access, Excel, SQL, Java, .Net and Python.
- Proficiency in business intelligence tools, analytics tools, software and dashboards such as Microsoft PowerBI, Tableau, ACL, Idea, Microsoft Reporting Services and Alteryx.
- Proficiency in Enterprise Data Warehouse for reporting.
- Translating functional requirements into technical requirements for applications/databases/interfaces and document.
- Designing and programming databases, interfaces and user tools in MS Access, VBA/Exce, APEX, JAVA and sometimes SQL server and .NET or Python.
- Extensive experience in methodologies and processes for managing large-scale databases.
- Demonstrated experience in handling large data sets and relational databases. Ability to handle multiple projects simultaneously and be results-driven.
- Excellent communication and presentation skills. Fluent in speaking/writing English.
- Working proficiency in Dutch, Papiamentu, and Spanish is a pre.
- Strong interpersonal and time-management skills.
- Ability to work under pressure.

Qualifications

- At a minimum a bachelor's degree in computer science, information technology, econometrics, advanced mathematics, data-analytics or equivalent education with professional certifications.
- Certification in data-analytics software and/ or programming (Alteryx, PowerBi, MS SQL, ACL, IDEA, SQL, Java, Python, .Net) is a pre.
- At a minimum 3 - 5 years' experience or more in a position of a Data-Analytics Professional or similar role with proven track record is required.

What we are offering

- The opportunity to be the best you can be, work flexible hours with hybrid working environment (working partly from home or abroad? No problem!) and lots of room to grow both personally and professionally.
- Professional development certifications and continuous professional education are paid for you.
- A gross monthly salary with a scale between ANG 5,000 (Senior Associate)- ANG 10,500 (top level experienced Senior Manager) depending on your experience and level of entry.
- Excellent above market secondary benefits such as vacation days and allowance, medical insurance, a bonus (guaranteed 1-2 times your monthly gross salary depending on your performance), Phone & car/travel allowance.
- Opportunity to travel, grow professionally, add value to our clients and having lots of fun and opportunities!
